JOHN RAZEC AGNO

IT STUDENT | PROGRAMMER

PERSONAL PROFILE

As sophomore IT student driven by a strong passion for technology, constantly seeking to elevate my skills and expertise. With an unwavering commitment to lifelong learning, I excel in solving intricate challenges and crafting innovative solutions. Motivated, proactive, and dedicated to expanding my IT prowess, I aim to make impactful contributions to any organization I'm part of.

PROJECT EXPOSURE

Backend Technical Lead
The Campus Chronicles | Web Based Application
(Jan 2024 – Present)

- Leads team developing web game for campus engagement, navigation, and freshman orientation.
- Spearheads feature conceptualization based on surveys, conducts tech research, oversees database design and normalization.
- Organizes system creation from scratch, proficient in HTML, CSS, JavaScript for frontend, Express.js, and Node.js for backend.
- Employs MySQL for database management, ensuring data integrity, data management, and efficient data retrieval.

WORK AND LEADERSHIP EXPERIENCE

Community Partnership Coordinator
Tech Innovators Society | BSU-TNEU (Lipa)
(Aug 2023 – Present)

- Streamlines event registration and evaluation processes, ensuring optimal participant experiences and valuable feedback collection.
- Establishes collaborative partnerships and initiates workshops, such as COMLITS: Empowering Learners through Computer Literacy in Public Schools.
- Teaches fundamental programming concepts to 7th-grade students at G.B. Lontoc Memorial School, igniting their passion for technology.

Service Crew
Mcdonald's | Golden Arches Development Corporation
(Jun 2022 – November 2022)

- Provided excellent customer service in a fast-paced environment, ensuring customer satisfaction and efficient operations.
- Demonstrated teamwork and adaptability while working in various roles within the restaurant.
- Managed time efficiently to handle multiple tasks simultaneously, professionalism during peak hours, while also successfully fulfilling my academic responsibilities.
